Project Management & Execution
Project Documentation & Reporting
Documentum Software installation-configuration
Corporate document migrations
FAR compliant document repository
Application/Infrastructure Deployment
950 Users Deployed
300,000 Documents migrated to repository

Human Factors Managed:

Project Team Members-Stakeholders
External Supplier Teams
Education Team Members
Network Services
Help Desk Services

Departments Deployed:

Design
Construction
Finance
Human Resources

Solution/Technologies Deployed:

Documentum Client Software
Documentum Content Manager Server Software
Documentum Import Tool Utility
Documentum Docbase
Oracle RDBMS

Proposal Management System

Managed implementation of an electronic proposal management system and document repository using Plumtree Portal, Microsoft .NET Application Framework, Documentum, and Oracle RDBMS technologies. Application Interface built to maintain document library, proposal workflow/collaboration, and proposal portal sites. End-User access to Proposal Document Repository provided via portal application supporting development and approval workflow and collaboration.

Project Deliverables:

Project Management & Execution
Project Documentation & Reporting
Application Development & Integration
Application/Infrastructure Deployment

Human Factors Managed:

Project Team Members-Stakeholders
Education Team Members
Network Services
Help Desk Services
External Vendor Teams

Application Integration:

Plumtree Portal
Documentum Content Manager
MS .NET Application Components
Oracle RDBMS

Solution/Technologies Deployed:

Documentum Client Software, Docbase
Documentum Content Manager Server Software
Oracle RDBMS
Plumtree Portal
.Net Application Server Integration
